

RDP Graduate Student Testimonial

*Creative and interesting assignments during the three-session Graduate Student Workshop, Series 3 gave me some tips how to improve my thesis research (Session 1). Also, it encouraged me to think about long-term plans in academic career and helped me to gain a better understanding of how I can realize these plans (Session 3). Finally, the Workshop encouraged me to enrich the methodology of my thesis by employing a content analysis of social media (**Maria Alekseevskia**, Graduate Student Member).*
